ORDER

Pursuant to the provisions of Sections 8-1412 and 1413.2 of the Natural Resources Article, Annotated Code of Maryland (1974 Volume), it is, this 26th day of October, 1979, by the Water Resources Administration, ORDERED:

That the General Services Administration shall:

1. By October 29, 1979, implement the following interim measures at 4125 46th Avenue, Bladensburg, Maryland:
 - (a) establish a 24 hour guard at the facility;
 - (b) install control devices, as required, to prevent water from entering the facility;
 - (c) place all materials contaminated with PCB's in drums meeting the EPA criteria for PCB storage and seal the drums;
 - (d) wipe down the exterior of all drums contaminated with PCB's (cleaning materials utilized are to be packaged as in c. above);
 - (e) prohibit access to the area used for storage of PCB's as well as the area directly above the storage area, and;
 - (f) institute an air quality sampling program in the drum storage area and surrounding areas (Condition 1.(f) is imposed pursuant to Article 43, Section 690 et seq., of the Annotated Code of Maryland)

2. By November 1, 1979, submit to the Administration for review and approval a specific proposal for removal of all remaining designated hazardous substances from 4125 46th Avenue. Include within this proposal the name of the firm or firms contracted to remove and transport the material, the location of the interim and final storage sites and a description of all precautionary measures to be implemented to assure a safe operation , including compliance with applicable EPA requirements (40 CFR Part 761) for transfer, storage, and disposal of PCB's.
3. By November 2, 1979, remove the drums of PCB contaminated non-liquid materials (rags, etc.) containing PCB's in concentrations of less than 500 ppm from 4125 46th Avenue, Bladensburg, to a landfill which meets EPA criteria for the disposal of such material.
4. By November 2, 1979, remove all drums of liquid PCB's and any other DHS from 4125 46th Avenue, Bladensburg, Maryland, to an interim storage facility. Storage at an interim facility may be approved for a period of 30 days. If a permanent storage facility is within the State of Maryland, an application for a Facility Permit must be submitted.
5. By November 26, 1979, notify the Department in writing of all other facilities in Maryland under your operation or control which involve the storage, utilization, treatment or disposal of designated hazardous substances. A list of substances designated by Maryland as hazardous is attached.
